	Total cash flow impact
2008	14.7
2009	62.0
2010	57.9
Q1 2011	21.5
Q2 2011	22.9

- > Total cash flow impact comprises old as well as new programs
- > Total expected cash flow impact for 2011 of EUR 100-110 mn

# Restructuring - Explanatory Information

- > The following factors have to be taken in account when comparing “FTEs Addressed” to “Provisioned FTEs”:
  - > FTEs of social plans may include receivers of one-time payments such as golden handshakes and can fluctuate due to transfer to government as well as retirement
  - > Number of staff released from work may fluctuate due to permanent reactivation, acceptance of social plans, transfer to government or retirement
- > In 2009, the following effects were noticeable:
  - > “FTE Effect” of EUR -10.0 mn as income from a reduction of staff released from work outweighed expense for number of new social plans
  - > This was overcompensated by interest rate adjustments and resulted in a total restructuring charge of EUR 17.5 mn
  - > Social plans included a significant number of FTEs accepting one-time payments
- > Previously communicated FTE numbers for 2008 and 2009 were adapted to a unified accounting view
