Outsourcing of Execution of Share Buyback Program Reduces Closed Period

- Beginning 3Q 07 Telekom Austria Group has outsourced the execution of its share buyback program to a bank
- Bank has discretion to acquire shares of Telekom Austria within a defined framework
- Without direct influence on timing of buyback Telekom Austria is no longer subject to closed periods
- Closed periods amounted to 83 trading days in 2006 and 47 trading days in HY I 07
- Outsourcing increases number of days on which Telekom Austria can buyback shares

Outlook

Outlook for FY 2007 reiterated as amended in July

Group

- Stable development of revenues
- EBITDA is expected to be impacted by start up costs related to the start of operations in the Republic of Serbia and Macedonia as well as the introduction of a comprehensive roaming regulation
- Full year EBITDA Margin is expected to decline 1.5% points compared to a reported margin of 40.1% in 2006
- Net income lower than in 2006 excluding one-off tax effects in 2006
- Capex increase of approximately 18% due to start up operations

Fixed Net

- Continued fixed-to-mobile substitution is expected to result in lower revenues & EBITDA, further growth of operating income

Mobile Communication

- Continued customer and growth of mobile data
- Revenue growth supported by international operations
- EBITDA and operating income lower due to launch of operations in Republic of Serbia and Macedonia as well as due to the roaming regulation

Appendix

Regulatory Issues – Key Aspects (1)

- **Analysis of wholesale market for mobile termination:** Like in the previous market analysis decision, mobilkom austria was found to have significant market power and therefore the following remedies were applied: non-discriminatory obligation, standard offer for mobile termination and cost orientated termination rates based on LRAIC.
- **Analysis of fixed networks wholesale and retail markets:** As Telekom Austria is has significant market power on the wholesale as well as on the retail market for fixed telephony services, the Austrian Regulatory Authority found that the same remedies will be applied to mobilkom austria as an affiliate of Telekom Austria. Furthermore the Austrian Regulatory Authority implied a specific ex-ante obligation on fixed/mobile convergence services, which states an ex-ante cost control for these services.
- **Decision of the administrative court:** After the court revoked both the SMP and the mobile termination rates decision the Austrian regulatory published the findings of its current market analysis in July 2007 taking into account the court's opinion without reaching different conclusions as in the first market analysis
- **Mobile termination rates:** Currently two ongoing proceedings with T-Mobile and Hutchison 3G. In January 2007 the Austrian Regulatory Authority finalized its experts opinion on the network costs for mobile termination. The results of the ongoing proceedings and the decision on mobile termination rates are expected in Q3 2007.

Regulatory Issues – Key Aspects (2)

- **Analysis wholesale broadband access market:** The Austrian Regulatory Authority started in May a market analysis process for the wholesale broadband access market (2nd round). The end of the market analysis process with final decision is not expected before the end of 4Q 2007. Currently Telekom Austria is a SMP-operator on this market with the following main remedies applied: non-discriminatory obligation, standard offer for bitstream access, wholesale prices calculated on a retail-minus basis, regulatory cost accounting.

Regulatory Issues – Key Aspects (3)

- **International roaming charges:** The roaming regulation came into force on 30. June 2007 containing the following provisions:
 - Wholesale: The maximum wholesale charge must not exceed 30 Cents in the first year and shall be decreased to 28 Cents in the second year and to 26 in the third year. Regulated wholesale tariffs have to be implemented 2 months after the entry into force of the regulation.
 - Retail: Introduction of a consumer protection tariff (Eurotariff). Eurotariff for active calls: 49 Cents in the first year, 46 Cents in the second and 43 Cents in the third year. Eurotariff for incoming calls: 24 Cents in the first year, 22 in the second and 19 in the third year.
 - Operators have to inform their customers of the availability of the Eurotariff within one Month after entry into force of the regulation; Customers have two months to decide if they want to use the Eurotariff or another roaming tariff.
 - Three months after entry into force all customers who did not decide on a roaming tariff (Eurotariff or other) will be switched to the Eurotariff automatically. Exempted are a) customers who made their choice of a certain roaming tariff, or b) customers who chose a non-standard roaming tariff before entry into force of the regulation (A1 Traveller, Eurocall).
 - The regulation will expire on 30 June 2010.
