

Curriculum Vitae

RONNY PECIK

Personal Data

Date of Birth: March 4, 1962
Place of Birth: Varazdin, Croatia
Citizenship: Austria

Education and Career

After his education as electrical engineer and high voltage engineer, Ronny Pecik completed a 3 years IT-education with IBM. In parallel he started working for Länderbank and took over the position as head of system sequential control in 1989.

Thereafter, Ronny Pecik was member of the project team establishing Österreichische Termin- und Optionenbörse (ÖTOB, Austrian Derivative Exchange). Further steps in his professional career were his functions as options trader, head of the Index Risk Arbitrage team and finally asset manager and private banker with Bank Austria.

Following further leading functions in the banking and finance sector, Ronny Pecik founded M&A PrivatBank AG and successfully led the growth of the bank to become what was then one of the leading and most exclusive private banks in Vienna.

As an active shareholder Ronny Pecik has been engaged in companies especially in Austria, Germany and Switzerland for the last twelve years, among them Böhler Uddeholm AG, VA Tech AG, A-Tec Industries AG, OC Oerlikon Corporation AG, Saurer AG, Sulzer AG, Ascom AG, M+W (Zander) Group as well as Telekom Austria AG.

Due to his numerous functions in various supervisory and executive boards Ronny Pecik benefits from a wide background and experience in business administration and business (re)organization as well as a long-time experience in banking and capital markets.
