May 25, 2004

Cautionary Statement

This presentation contains certain forward-looking statements. Actual results may differ materially from those projected or implied in such forward-looking statements. Forward-looking information involves risks and uncertainties that could significantly affect expected results. These risks and uncertainties are discussed in Telekom Austria's SEC filings, including, but not limited to, Telekom Austria's Form 6-K containing the relevant press release and certain sections of the Company's Annual Report on Form 20-F.

Key Developments

Telekom Austria 1Q 04 Highlights

- Solid results in both business segments
- Wireline revenue decline continues to slow down due to higher monthly rentals and rising ADSL subscribers; margin improvement reflects successful cost reductions
- Wireless segment benefits from strong performance of domestic operations and rising contributions from Croatia and Slovenia
- Net debt decline slows due to traditionally higher working capital during the first quarter
- 1Q 04 result confirms full year outlook
- Introduction of new stock option plan

TikTak Tariff Relaunch

Highlights

Main goal: Revenue stabilization through higher usage, customer retention and segment specific second-based billing

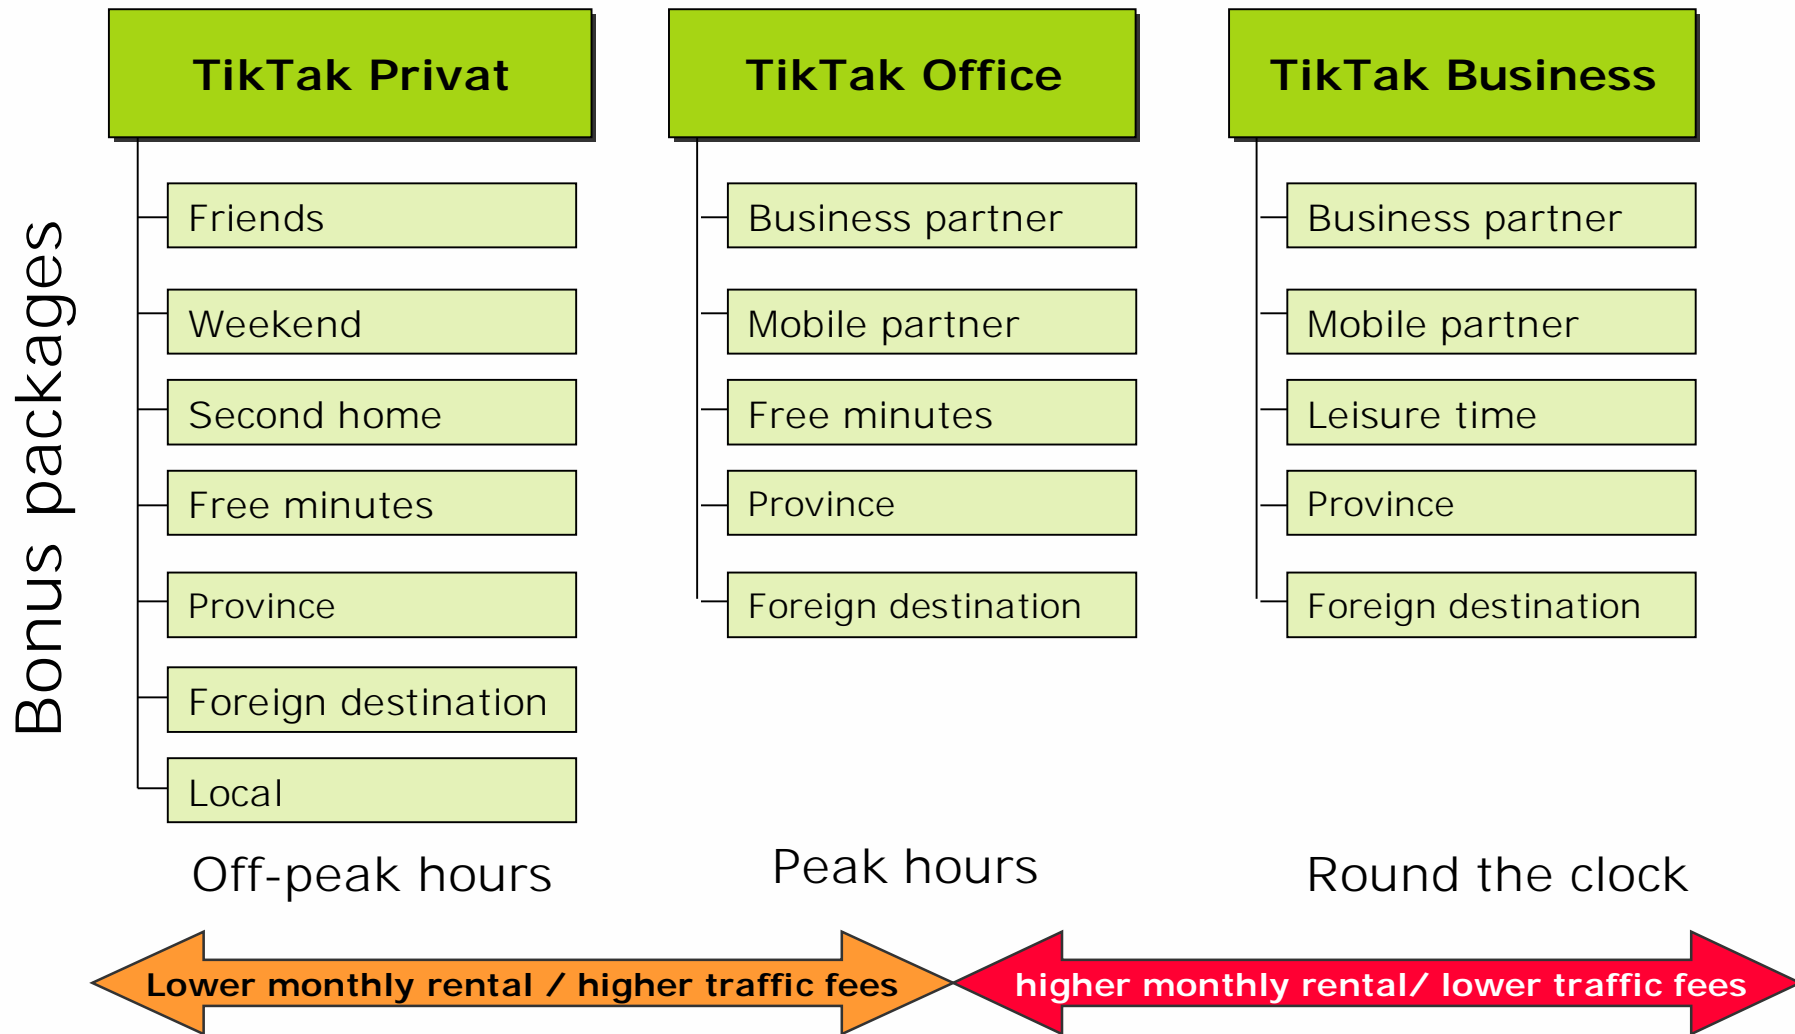

Key content

- Substantial reduction of number of tariffs offered (from 10 to 4) and alignment of customer segments
- Three basic TikTak tariffs (private, office, business)
- Launch of additional tailor-made packages (modular design)
- Second-based billing (private 60/1, office 30/1, business 1/1)

Positioning and USP

- Improved price perception through lower tariffs
- Simplification and concentration
- Addressing SME/SOHO segment via dedicated offerings
- Emotionalizing e.g. by positioning of "Friends"

Simplification and Attractive Bonus Packages

Appendix

Regulatory Issues

Key Aspects

- Ongoing definition and analysis of telecommunications markets for regulations; finalization expected in 3Q 04
- Decision about new wireline interconnection rate in 2Q 2004
- Resale of access line not expected until 2005
- Introduction of mobile number portability (MNP) expected for 4Q 04/1Q 05
- tele.ring has started cutting its mobile termination rate; 30% reduction through 4/2005 reduces asymmetry of interconnection rates between operators
